Anti-Sag Chains center and stabilize mast

2500 LB CAP.

- 84" LIFT HEIGHT
- TILT CYLINDER:
7° FORWARD
12° BACKWARD
- CAT. 1&2 MOUNT PINS
- OPTIONAL SIDESHIFT
- OPTIONAL
HYDRAULIC HOSES

The PAK-STAK is a sturdy, detachable, light weight, low profile hoist for Ford and Ferguson type tractors.

The HEAVY-DUTY FORKS adjust laterally (8" to 30 ") and easily adapt to all types of loading.

The HYDRAULIC CYLINDERS operate off of the tractor hydraulic system.

The MOUNT BRACKETS for the 3-Point Unit and Subframe Units (front or rear) are designed for easy hookup and quick removal to free the tractor for other tasks.

SHIPPING WEIGHTS (approximate):

3-POINT UNIT w/o sideshift - 435 lbs; 3-POINT w/sideshift - 675 lbs.

SUBFRAME (front or rear) w/o sideshift 840lbs; SUBFRAME (front or rear) w/sideshift 1080lbs.
